SUMMARY

I'm a data analyst with internship experience in data cleaning, exploratory analysis, and visualization. I work mainly in Python, Pandas, SQL, and Power BI. I've analyzed 8,790 Netflix titles and a 1,000-record retail sales dataset covering revenue, product categories, and customers. I like turning raw data into dashboards and reports that people can actually use.

SKILLS

Data Analysis: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Trend Analysis, KPI Analysis, Linear Regression, Model Evaluation, Data Visualization
Databases: SQL, MySQL, Relational Databases
Programming: Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly, C++
BI and Dashboards: Power BI, DAX, Power Query, Streamlit, Dashboarding
Spreadsheets: Excel (Pivot Tables, VLOOKUP, Data Modeling)
Web and Backend: React.js, TypeScript, Node.js, Express.js, FastAPI, Next.js
Tools: Git, GitHub, Docker

EXPERIENCE

Data Scientist Intern, Auspify Technologies 3 October – 3 November

- Cleaned and explored a dataset of 8,790 Netflix titles, identifying 6,126 movies and 2,664 TV shows, using Python and Pandas.
- Built the Netflix Data Science and Analytics Dashboard with Streamlit and Plotly to make the trends easy to explore.
- Worked on predictive analysis with Linear Regression and reviewed model evaluation results.

Software Development Intern, HashBit Innovations 10 June – 14 August

- Contributed to a Hospital Management System, working on the frontend and backend APIs with React.js, TypeScript, Node.js, and Express.js.
- Implemented CRUD functionality and MySQL database operations, so the frontend could create, read, update, and delete records.

Data Analyst Intern, DataX Web Solutions 16 June – 15 July 2026

- Completed one month of practical data analysis tasks, applying analytical methods and data analysis techniques.

PROJECTS

Retail Sales Analytics Dashboard
Power BI, Excel, Power Query, DAX

- Analyzed sales trends, product categories, customer information, and revenue across 1,000 records and 9 columns. I cleaned the data in Power Query and built KPI measures and visuals in Power BI.

BAYORA: AI-Powered Website Safety and Reliability Testing
Next.js, FastAPI, PostgreSQL, Docker

- Designed and built a system to find website vulnerabilities and reliability issues. I built 16 test cases using a FastAPI backend and PostgreSQL storage.

EDUCATION

B.Tech, Electronics and Communication Engineering Expected 2028
Galgotias College of Engineering and Technology, Greater Noida
CGPA: 7.3/10
Relevant coursework: Probability and Statistics, Database Management Systems, Linear Algebra, Data Structures

CERTIFICATIONS

- Data Analytics Essentials, Cisco Networking Academy
- Data Analytics Job Simulation, Deloitte (Forage)
- Data Analytics Certification, PW Skills
- Oracle Certified Foundations Associate (Agentic AI), Oracle University
- AI Foundation Course, Jio Institute
